The Logistics and Transportation Review
Volume 23 — 1987

Prabir K. Bagchi, T.S. Raghunathan and Edward J. Bardi
The Implications of Just-In-Time Inventory Policies on Carrier Selection 373

James H. Bookbinder and Noreen A. Sereda
A DRP-Approach to the Management of Rail Car Inventories 265

Laurits R. Christensen and John H. Huston
A Reexamination of the Cost Structure for Specialized Motor Carriers 339

Teodor Gabriel Crainic
Operations Research Models of Intercity Freight Transportation: The Current State and Future Research Issues 189

Grant M. Davis, Norman Weintraub and William H. Holley, Jr.
Employee Stock Ownership Programs and Their Use in Trucking: Capital Formation, Employee Participation, or Survival? 243

John F. Due
Abandonment of Rail Lines and the Smaller Railroad Alternative 109

Julius M.L. Gorys
The Intercity Carriage of Dangerous Goods in the Province of Ontario 307

Ali E. Haghani and Mark S. Daskin
A Combined Model of Train Routing, Makeup, and Empty Car Distribution 173

John L. Hazard
The Institutionalization of Transportation Policy — Two Decades of DOT 33

William L. Huth and Steven E. Eriksen
Airline Traffic Forecasting Using Deterministic and Stochastic Time Series Decomposition 385

James C. Johnson and Kenneth C. Schneider
Marketing Managers Discuss the Strengths and Weaknesses of Logistics Personnel 325

Moshe Kim
Multilateral Relative Efficiency Levels in Regional Canadian Trucking 155

Patrick S. McCarthy and William Oesterle
The Deterrent Effects of Stiffer DUI Laws: An Empirical Study 353

Henry McFarland
The Economics of Vertical Restraints and Relationships Between Connecting Railroads 207

James C. Nelson
Politics and Economics in Transport Regulation and Deregulation — a Century Perspective of the ICC's Role 5

Michael W. Pustay
Shifting the Burden of Proof 411

Marti J. Rhea and David L. Shrock
Measuring Distribution Effectiveness with Key Informant Reports 295

Merrill J. Roberts
Residual Railroad Rate Control: The Unmet Challenge of Deregulation 83

Karl M. Ruppenthal
U.S. Airline Deregulation — Winners and Losers 65

Ronaldo Serta
Forecasting the Demand of a Subway Which is to Provide Free Rides 223

Hector Viscencio-Brambila and Stephen Fuller
Estimated Effect of Deepened U.S. Gulf Ports on Export-Grain Flow Patterns and Logistics Costs 139

Hsiao-Fan Wang
Application of Iterative Scaling Method to Calibrate a Combined Trip Distribution and Mode Choice Model 281

L.L. Waters
Federal and State Transport Policies Mostly about Motor Carriers 57

P.R. White and R.P. Turner
Development of Intensive Urban Minibus Services in Britain 385
